MANIFOLDS & COMPONENTS

1" Male Manifold Blanking Plug

Seals a bar end or 1" female port.

A 1" BSP male blanking plug for sealing the end of a manifold bar, or any unused 1" female port. Nickel-plated brass with a washer or O-ring sealing face, so no PTFE is needed.

CODE

MHF1-BP1M

01 · KEY FEATURES

Why installers use it

- **No PTFE needed.** The sealing face does the work.
- **Blank a bar end.** Use it where no end unit or extension is fitted.
- **Nickel-plated brass.** Matches the rest of the manifold.

IN THE BOX

1 blanking plug with seal

02 · SPECIFICATION

Technical data

Thread	1" BSP male
Material	Nickel-plated brass
Seal	Washer or O-ring face

03 · ORDER CODE

One code for this product. Check the specification on page 1 before you order.

04 · WORKS WITH

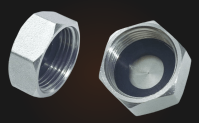

Complete the system

Manifold Auto Air Vent End Unit

1" Male x 1" Male Straight Manifold Connector

3/4" Female Blanking Cap for unused outlets

ALSO WORKS WITH

1" Male x 1" Male Straight Connector

05 · FITTING AT A GLANCE

2 steps, details in the install manual

1. Check the seal is seated and the port is clean.
2. Screw the plug in by hand, then tighten until the seal compresses. Do not use PTFE.

06 · QUESTIONS

Asked by installers

Where does it go?

In the end of a manifold bar, or any 1" female port you want to close.

Do I need thread tape?

No. It seals on its washer or O-ring face.
