MANIFOLDS & COMPONENTS

1 Port Dualmix Stainless Steel Manifold Extension

Adds one loop to a Dualmix manifold.

A single-port extension for the Dualmix stainless steel manifold. Use it to add one more heating loop to an existing manifold, or to make up an odd port count without buying a bigger manifold.

CODE

MHMSS-1F-3/4x1

PRODUCT

01 · IN THE BOX

What you get

- 1 port extension section

02 · YOU WILL NEED

Tools and materials

- Spanners for 1" connections
- Pipe cutter and reaming tool

03 · SAFETY

Before you start

- Installation should be carried out by a competent installer, in line with the system design and BS EN 1264.
- Isolate and drain down, or isolate with the manifold ball valves, before working on a filled system.
- Hot water and pressure can cause injury. Let the system cool and release pressure before opening any joint.

04 · INSTALLATION

Fit it in 6 steps.

1. Isolate the manifold with its ball valves and drain the manifold bars.
2. Remove the end unit (air vent or gauge) from the end of the bar you are extending.
3. Fit the extension to the bar end, keeping the outlets in line with the existing ports.
4. Refit the end unit to the end of the extension.
5. Repeat on the other bar if adding a full loop (flow and return each need one extension).
6. Connect the new loop with Eurocone connector cores, then refill, vent and pressure test.

05 · TESTING AND COMMISSIONING

Test, check, then hand over

- [x] Pressure test the manifold after adding the extension, checking every disturbed joint.

06 · CARE AND MAINTENANCE

Keep it working

- Label the new loop with its room on both bars.

07 · GOOD TO KNOW

How many do I need?

One extension adds one port. If you need several more loops, a larger Dualmix manifold may be simpler. If you're unsure, send us your plans and we'll check the loop count.

08 · QUESTIONS

Asked by installers

Which manifold does it fit?

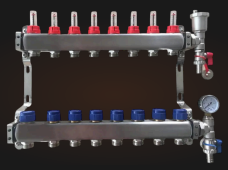

It is made to extend the Dualmix stainless steel manifold.

Does it come with a pipe connector?

No. Add a 3/4" Eurocone connector core to suit your pipe size.

09 · WORKS WITH

Parts that fit with it

Dualmix Stainless Steel Manifold Assembly

Eurocone Connector Cores 3/4" to connect the pipe

2-Wire Thermal Actuator for zone control
