MLCP COMPRESSION FITTINGS

16mm MLCP Compression Coupling
Straight joint for 16mm multilayer pipe.

Joins two lengths of 16mm multilayer pipe in a straight line with spanners, no press tool needed. A van stock item for UFH loop repairs and short extensions.

CODE
MHF1-S1216x1216

01 · KEY FEATURES

Why installers use it

- **No press tool.** Two spanners are all you need.
- **Loop repairs.** A quick fix for a 16mm UFH pipe nicked during the build.
- **Sold singly.** Buy one or as many as you need.

IN THE BOX

1 compression coupling

02 · SPECIFICATION

04 · ORDER CODE

MHF1-S1216x1216.

One code for this product. Check the specification on page 1 before you order.

05 · WORKS WITH

Complete the system

PERT-AL-PERT Multilayer Pipe in 16mm

16mm MLCP Compression Elbow

16mm PEX to 15mm Copper Compression Adaptor

ALSO WORKS WITH

PERT-AL-PERT Multilayer Pipe (16mm)

06 · FITTING AT A GLANCE

Full steps in the install manual

1. Cut both pipe ends square and ream them so the inserts slide in cleanly.
2. Slide a nut and olive onto each pipe end.
3. Push each pipe fully onto the insert in the coupling body.
4. Tighten each nut by hand, then finish with a spanner while holding the body with a second spanner. Do not overtighten.

07 · QUESTIONS

Asked by installers

Do I need a press tool?

No. It's a compression fitting, so you tighten it with spanners.

Can I join 16mm to copper with it?

No, this joins 16mm to 16mm. Use the 16mm PEX to 15mm copper adaptor for that.
