PUMPS & CONTROLS

2-Port Motorised Zone Valve

One heating or hot water zone, 22mm or 28mm.

A 2-port motorised zone valve that opens and closes one heating or hot water zone on demand. Use one valve per zone, for example in an S-plan system or to switch a UFH circuit as its own zone, with a mixing pack.

CODES

MH-ZV-2P-22, MH-ZV-2P-28

01 · KEY FEATURES

Why installers use it

- **One zone per valve.** Add a valve for each zone you want to switch on its own.
- **Two sizes.** 22mm for most domestic runs, 28mm for larger primaries.
- **Works with UFH.** Switches the UFH circuit as its own zone, with a mixing or pump pack.

IN THE BOX

02 · SPECIFICATION

Technical data

Type	2-port motorised zone valve
Sizes	22mm or 28mm

03 · QUESTIONS

Asked by installers

Which size do I need?

Match the valve to the pipe it's going on: 22mm or 28mm.

2-port or 3-port?

A 2-port valve controls one zone, so S-plan systems use one per zone. A 3-port mid-position valve runs heating and hot water from one valve in a Y-plan system.

04 · SIZES AND CODES

Pick the size, one code each.

2 options by size. Order by code.

SIZE	CODE
22mm	MH-ZV-2P-22
28mm	MH-ZV-2P-28

06 · FITTING AT A GLANCE

Full steps in the install manual

1. Choose the size to match the pipe: 22mm or 28mm.
2. Isolate and drain the circuit.
3. Fit the valve in the flow to the zone, with the flow arrow (if marked) pointing the right way, and with room to reach the actuator head.
4. Make the pipe joints and refill the system. Vent and check for leaks.

07 · GOOD TO KNOW

Sizes

Wiring should be done by a qualified electrician.
