MANIFOLDS & COMPONENTS

3/4" Ball Valve Set for Blending Valve
Red and blue, pair.

A pair of 3/4" full-bore isolating ball valves for the primary connections of a UFH blending valve or pump pack. Isolate the unit from the boiler or heat pump for servicing without draining.

CODE
MHM-BV3/4x2

01 · KEY FEATURES

Why installers use it

- **Service without draining.** Isolate the pump pack in seconds.
- **Red and blue handles.** Flow and return are easy to tell apart.
- **Full bore.** No restriction when open.
- **Robust.** Nickel-plated brass with PTFE seats, rated to 10 bar and 110°C.

IN THE BOX

2 ball valves (red and blue)

Blending valve pump pack with Grundfos UPM3 Auto

Blending valve, valve only

Manifold Ball Valve Set 1"

05 · FITTING AT A GLANCE

4 steps, details in the install manual

1. Fit the red valve on the primary flow into the blending valve or pump pack.
2. Fit the blue valve on the primary return.
3. Position the handles so they are easy to reach.
4. Connect the primary pipework from the boiler or heat pump.

06 · QUESTIONS

Asked by installers

Is it a pair?

Yes. One red valve and one blue valve.

Where do they go?

On the primary flow and return into the blending valve or pump pack, between it and the boiler or heat pump.
