UFH PANELS & BOARDS

6mm Cementitious Tile Backer Fibre Board 1200 x 600mm

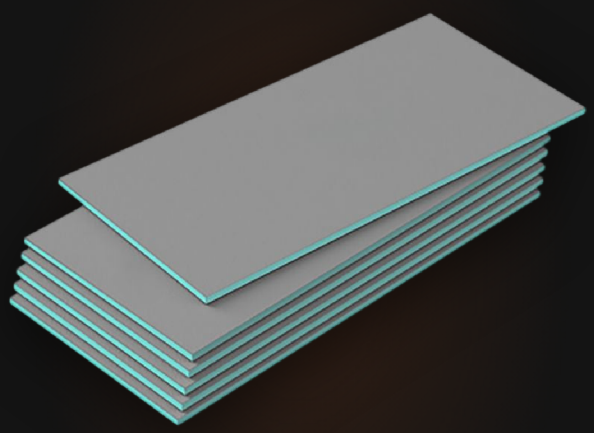

Full cement tile backer, 1200 x 600mm.

A 6mm full cementitious tile backer board, cement-based right through. It gives a solid surface to tile onto for tiled floors with electric underfloor heating, with a thin 6mm build-up.

CODE

MH-CTBB-6

PRODUCT

01 · IN THE BOX

What you get

- 1 tile backer board, 1200 x 600mm

02 · YOU WILL NEED

Tools and materials

- Tape measure and straight edge
- Cutting tool suited to cement board
- Tile adhesive and trowel

03 · SAFETY

Before you start

- Installation should be carried out by a competent installer, in line with the system design and BS EN 1264.
- Wear a dust mask and eye protection when cutting boards, and gloves when handling adhesives, primers and compounds.
- Follow the instructions and safety data sheets for every primer, adhesive and levelling compound used with the system.

04 · INSTALLATION

Fit it in 5 steps.

1. Work out how many boards you need: divide the floor area by 0.72 and round up, with a few extra for cuts.
2. Make sure the subfloor is sound, clean and flat.
3. Lay and fix the boards to the subfloor, with joints staggered.
4. Fit the electric heating mat as its instructions require.
5. Tile with a suitable tile adhesive.

05 · TESTING AND COMMISSIONING

Test, check, then hand over

- [x] Test electric heating mats as their instructions require before and after tiling.

06 · QUESTIONS

Asked by installers

How is this different from the XPS backer board?

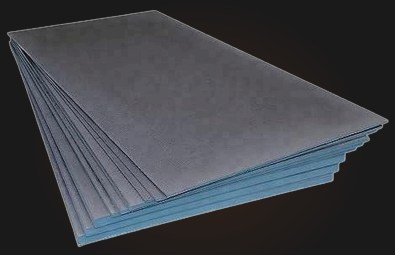

This board is full cementitious. The XPS board has a foam core with a cement coating, which insulates and is far lighter.

How much floor does one board cover?

0.72m². Divide your floor area by 0.72 and round up, with a few extra for cuts.

07 · WORKS WITH

Parts that fit with it

Cement-Coated XPS Tile Backer Board if you need insulation

Electric Underfloor Heating Mat 150W/m²

Ultra Prime IT Multi Surface Primer
