01 · KEY FEATURES

Why installers use it

- **Two jobs in one.** A corner and a size change with a single fitting.
- **Fewer joints.** Less to press and fewer places for a leak.
- **Press, don't solder.** Made with M-profile jaws, so no flame on site.
- **Bag or box.** Full packs only. Our supplier does not split packs.

03 · GOOD TO KNOW

Choosing the size

The first number is the larger end and the second is the smaller end, so 22-15mm takes 22mm tube one side and 15mm tube the other. You need M-profile jaws in both sizes.

09 · QUESTIONS

Asked by installers

Will my MH-EHCS tool press it?

Yes. All three sizes use 15, 22 or 28mm M-profile jaws, which fit the MH-EHCS and the MH-HPEHCS.

Can I buy single fittings?

No. Our supplier does not split packs, so we sell full bags and boxes only.
