INSULATION

# Edge Insulation Foam Roll 100mm x 5mm

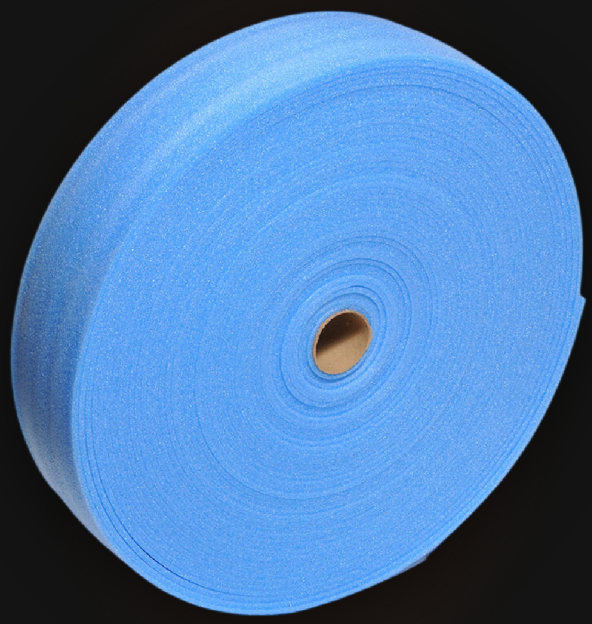

## Perimeter expansion strip for screeds.

A 100mm x 5mm closed-cell polyethylene foam strip for wet underfloor heating. Fix it around the room and any columns before screeding. It takes up screed expansion and stops heat escaping into the walls.

CODES

**MH-EDGE-25M, MH-EDGE-50M**

PRODUCT

01 · IN THE BOX

### What you get

- 1 roll of edge strip

02 · YOU WILL NEED

### Tools and materials

- Tape measure
- Sharp knife
- Staple gun or clips to hold it in place

03 · SAFETY

### Before you start

- Installation should be carried out by a competent installer, in line with the system design and BS EN 1264.
- Wear gloves and eye protection when cutting pipe, handling metal plates or using hand tools.
- Release system pressure and let pipework cool before cutting into or disturbing any filled pipe.

04 · INSTALLATION

## Fit it in 6 steps.

1. Measure the perimeter of each room plus around any columns.
2. Lay the floor insulation first, then fit the strip on top, tight to the walls and round columns.
3. Keep it tight, so it stands proud of the finished screed.
4. Where large and small areas meet, and at doorways where pipes pass through, form an expansion joint from a length of strip; sleeve pipes 300mm each side.
5. Lay the pipe and screed.
6. Once the screed is down, trim the excess strip flush with the floor finish.

05 · TESTING AND COMMISSIONING

## Test, check, then hand over

- [ ] Check the strip is continuous around the room with no gaps before screeding.

06 · GOOD TO KNOW

## How much do I need?

Measure the perimeter of each room, plus around any columns, and add the lengths together. After screeding, trim the excess flush with the floor finish.

07 · QUESTIONS

## Asked by installers

**When do I fit it?**

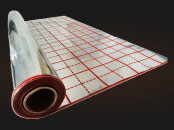

Before screeding. Fix it around the room perimeter and around columns, then lay the floor.

**What happens to the strip above the floor?**

Once the screed is down, trim the excess flush with the floor finish.

08 · WORKS WITH

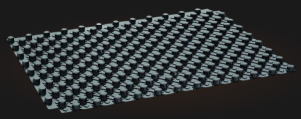

## Parts that fit with it

Underfloor Heating Grid Membrane

High Grip Barbed Pipe Clips

Castellated Floor Panel 1220 x 820mm

ALSO WORKS WITH

Insulation boards
