VALVES

Full Bore Lever Ball Valve, Compression, WRAS Approved

Compression x compression, 15 to 35mm.

A WRAS approved full-bore lever ball valve with compression ends, for isolating hot and cold water and heating pipework. Fitted with spanners, no press tool.

CODES

MH-LBV-15 to MH-LBV-35

PRODUCT

01 · IN THE BOX

What you get

- 1 lever ball valve with compression nuts and olives

02 · YOU WILL NEED

Tools and materials

- Tube cutter
- Deburring tool
- Two spanners

03 · SAFETY

Before you start

- Installation should be carried out by a competent installer, in line with the system design and current water and heating regulations.
- Isolate, drain and release the pressure before cutting into or working on a filled system.
- Use only the press jaw profile and size made for the fitting, and check every joint is pressed before filling.

04 · INSTALLATION

Fit it in 5 steps.

1. Position the valve so the lever can turn a full quarter turn clear of walls and other pipes.
2. Cut the tube square and deburr it inside and out.
3. Slide the nut and olive onto the tube and push the tube fully into the valve end.
4. Tighten the nut by hand, then finish with a spanner while holding the valve body with a second spanner. Do not overtighten.
5. Repeat on the other end.

05 · TESTING AND COMMISSIONING

Test, check, then hand over

- [x] Pressure test with the valve open, then close it to check it holds.

06 · CARE AND MAINTENANCE

Keep it working

- Turn the valve fully open and closed once a year so it does not seize.

07 · QUESTIONS

Asked by installers

Do I need a press tool?

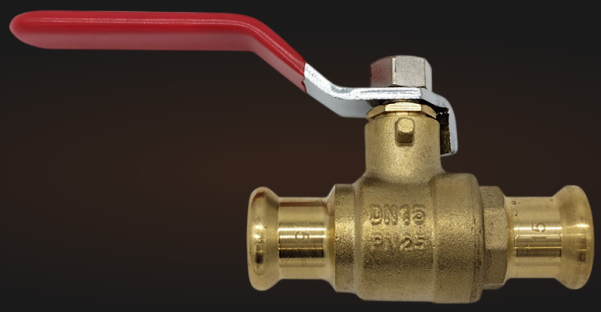

No. This valve has compression ends. If you are pressing the rest of the job, see our M-press lever ball valve .

Is it sold in packs?

No. Each valve is sold on its own.
