HEATMISER CONTROLS

Heatmiser Slimline-RF Wireless Digital Programmable Thermostat

Wireless, buttons not apps.

A battery-powered wireless programmable thermostat for homeowners who want buttons rather than an app. It pairs with the UH8-RF wiring centre or the RF-Switch receiver, so no thermostat cable is needed.

CODE

HM-SLIMLINE-RF

PRODUCT

01 · IN THE BOX

What you get

- Slimline-RF thermostat
- Fixing screws

02 · YOU WILL NEED

Tools and materials

- Small screwdriver
- 2 AAA batteries
- Drill and wall plugs for wall mounting

03 · SAFETY

Before you start

- The receiver or wiring centre it pairs with is mains powered: isolate that supply before wiring.
- A qualified electrician must make the final mains connections at the receiver or wiring centre, to BS 7671.
- Use the battery size stated and do not mix old and new batteries.

04 · INSTALLATION

Fit it in 5 steps.

1. Fit the receiver first: a UH8-RF at the manifold, or an RF-Switch at the boiler (mains work for a qualified electrician).
2. Fit the batteries and choose the wall position, away from draughts, direct sun and heat sources.
3. Pair the thermostat to its receiver zone, following the Heatmiser pairing steps supplied.
4. Set the programme: heating levels, and hot water times if used.
5. Mount on the wall, or use the desk stand.

05 · TESTING AND COMMISSIONING

Test, check, then hand over

- [x] Raise the set temperature and check the paired receiver channel switches.
- [x] Check the signal from the final position before fixing.

06 · CARE AND MAINTENANCE

Keep it working

- Replace the 2 AAA batteries when flagged, typically yearly.

07 · WORKS WITH

Parts that fit with it

Heatmiser UH8-RF Wireless Wiring Centre

Heatmiser RF-Switch Two Channel Receiver
