FIXINGS

High Grip Barbed Pipe Clips 40mm and 60mm tacker clips.

Barbed pipe clips, or staples, that fix underfloor heating pipe to insulation board before screeding. The barbs grip the insulation so the pipe stays where you lay it.

CODES

MH-CLIP-40-300, MH-CLIP-60-300

PRODUCT

01 · IN THE BOX

What you get

- 300 barbed pipe clips

02 · YOU WILL NEED

Tools and materials

- Tacker gun for 40mm and 60mm clips
- Pipe decoiler
- Tape measure or spacing batten

03 · SAFETY

Before you start

- Installation should be carried out by a competent installer, in line with the system design and BS EN 1264.
- Wear gloves and eye protection when cutting pipe, handling metal plates or using hand tools.
- Release system pressure and let pipework cool before cutting into or disturbing any filled pipe.

04 · INSTALLATION

Fit it in 6 steps.

1. Choose the clip length to suit the insulation thickness.
2. Make sure the floor is clean and level, the edge insulation is fitted and the insulation and membrane are down.
3. Load the clips into the tacker gun.
4. Lay the pipe from the manifold to the design, one loop at a time, keeping the centres even. Keep pipe at least 100mm from walls.
5. Clip the pipe as you go, about every 500mm, with three on each bend. PE-RT pipe is springier than multilayer and may need more.
6. Connect each loop to the manifold before starting the next.

05 · TESTING AND COMMISSIONING

Test, check, then hand over

- [x] Fill and flush each loop one at a time, vent the air, then raise the system to 6 bar with a test pump.
- [x] Hold 6 bar for 1 hour. A small drop can come from water temperature change; a leak usually shows within the hour.
- [x] Have the test witnessed and signed off, and keep the pipe under pressure while the screed is laid.

06 · CARE AND MAINTENANCE

Keep it working

- Check the pipe has not lifted off the board before the screed goes down.

07 · QUESTIONS

Asked by installers

Will they fit my tacker gun?

They fit the MaxHeatUFH tacker gun for 40mm and 60mm pipe clips.

How many are in a pack?

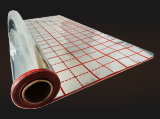

300 clips, in either the 40mm or the 60mm length.

08 · WORKS WITH

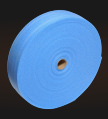

Parts that fit with it

Tacker Gun for 40mm and 60mm Pipe Clips

Underfloor Heating Grid Membrane to set out pipe centres

Edge Insulation Foam Roll

ALSO WORKS WITH

- Insulation boards
- PERT-AL-PERT or PERT-EVOH UFH pipe
