FIXINGS

Pipe Conduit for 16mm Pipe

Protective sleeve for 16mm UFH pipe.

A 25m coil of conduit sized for 16mm underfloor heating pipe. Slide it over the pipe where it needs a protective sleeve: through walls, across expansion joints and doorways, or on the run up to the manifold.

CODE

MHPC-16-25

PRODUCT

01 · IN THE BOX

What you get

- 1 x 25m coil of conduit

02 · YOU WILL NEED

Tools and materials

- Sharp knife or pipe cutter
- Tape measure

03 · SAFETY

Before you start

- Installation should be carried out by a competent installer, in line with the system design and BS EN 1264.
- Wear gloves and eye protection when cutting pipe, handling metal plates or using hand tools.
- Release system pressure and let pipework cool before cutting into or disturbing any filled pipe.

04 · INSTALLATION

Fit it in 4 steps.

1. Mark where the pipe passes through a wall, crosses an expansion joint or doorway, or rises to the manifold.
2. Cut a length of conduit to cover that section with some overlap either side.
3. Slide the conduit onto the pipe before connecting the pipe end.
4. Position the sleeve over the section and fix the pipe either side as normal.

05 · TESTING AND COMMISSIONING

Test, check, then hand over

- [x] Check the sleeves have not slipped before the screed goes down.

06 · QUESTIONS

Asked by installers

Which pipe fits?

It is sized for 16mm underfloor heating pipe.

How long is the coil?

25 metres. Cut it to length for each section you need to sleeve.

07 · WORKS WITH

Parts that fit with it

Pipe Support Bend for the turn up to the manifold

5-Layer PERT-EVOH UFH Pipe 16mm

ALSO WORKS WITH

16mm UFH manifolds
