TOOLS

Pipe Cutter 14-32mm
For plastic and multilayer pipe.

Cuts plastic and multilayer pipe from 14mm to 32mm. A clean, square cut is the first step to a good press or compression joint.

CODE

MH-CUTTER-14-32

PRODUCT

01 · IN THE BOX

What you get

- 1 pipe cutter

02 · YOU WILL NEED

Tools and materials

- Marker pen
- Reaming or chamfering tool

03 · SAFETY

Before you start

- Read these instructions before first use and keep the tool clean and in good condition.
- Wear suitable gloves and eye protection.
- Keep hands clear of blades, jaws and moving parts, and never use a damaged tool.

04 · INSTALLATION

Fit it in 5 steps.

1. Mark the cut on the pipe.
2. Open the cutter and set the pipe in the jaw with the blade on the mark, square to the pipe.
3. **Squeeze the handles steadily to cut straight through.** Do not twist or rock the cutter.
4. Check the cut is square.
5. Ream or chamfer the end before fitting so it does not damage the O-rings.

05 · CARE AND MAINTENANCE

Keep it working

- Keep the blade clean and dry.
- Replace the blade if cuts become ragged or out of square.

06 · QUESTIONS

Asked by installers

What's the largest pipe it cuts?

32mm.

Do I need to deburr after cutting?

Yes. Ream or chamfer the end so it doesn't damage the O-rings.
