FIXINGS

Pipe Support Bend

Supported 90° turn up to the manifold.

Holds underfloor heating pipe in a smooth, supported 90 degree turn where it comes up out of the floor to the manifold, so the bend stays neat and the pipe does not kink or flatten.

CODE

MH-PSB

01 · KEY FEATURES

Why installers use it

- **Stops kinking.** Supports the pipe through the turn so it keeps its shape.
- **Neat manifold risers.** Flow and return pipes come up straight and evenly spaced.
- **Quick to fit.** Clip the pipe into the bend and fix it in place.
- **Buy what you need.** Sold singly, so order one for each pipe that rises out of the floor.

IN THE BOX

1 pipe support bend

02 · SPECIFICATION

Technical data

Turn	90°
Quantity	Usually 2 per loop (flow and return)
Supplied as	Single

04 · ORDER CODE

MH-PSB.

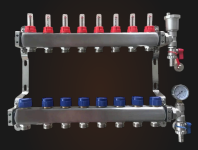

One code for this product. Check the specification on page 1 before you order.

05 · WORKS WITH

Complete the system

Pipe Conduit for 16mm Pipe

Dualmix Stainless Steel Manifold Assembly

Eurocone Connector Cores 3/4"

06 · FITTING AT A GLANCE

Full steps in the install manual

1. Mark where each pipe will leave the floor below its manifold port.
2. Clip the pipe into the support bend.
3. Fix the bend in place so the pipe rises straight up to the manifold.
4. Repeat for every flow and return pipe, keeping the bends evenly spaced.

07 · QUESTIONS

Asked by installers

Is it sold singly?

Yes. Order one for each pipe end that needs a supported bend.

Where does it go?

At the point where the pipe leaves the floor and turns up to the manifold.

08 · GOOD TO KNOW

How many do I need?

Usually one for each pipe end at the manifold: two per loop, one for the flow and one for the return.

09 · AT A GLANCE

Pipe Support Bend

TURN

90°

QUANTITY

Usually 2 per loop (flow and return)
