FIXINGS

Self-Adhesive Pipe Clip Rail
Interlocking rail for even pipe spacing.

A 1m self-adhesive clip rail for fixing underfloor heating pipe. The lengths interlock end to end, so you can make any run. Stick the rail down, then clip the pipe in at the spacing you need.

CODE
MH-CLIPRAIL-1M

01 · KEY FEATURES

Why installers use it

- **Self-adhesive.** Sticks down with no screws or staples.
- **Interlocking 1m lengths.** Join as many lengths as the run needs.
- **Keeps pipe spacing even.** The clips hold each pipe run in line.
- **Sold by the length.** Order exactly the number of metres you need.

IN THE BOX

1 x 1m clip rail

02 · SPECIFICATION

Technical data

Length	1m
Joining	Interlocks end to end
Fixing	Self-adhesive backing
Rail spacing	Typically every 1 to 1.2m, at right angles to the pipe runs

03 · ORDER CODE

MH-CLIPRAIL-1M.

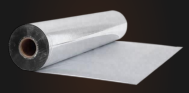

One code for this product. Check the specification on page 1 before you order.

04 · WORKS WITH

Complete the system

High Grip Barbed Pipe Clips for tacker systems

Reflective Aluminium Foil Insulation Roll

Pipe Decoiler

ALSO WORKS WITH

UFH pipe

05 · FITTING AT A GLANCE

Full steps in the install manual

1. Make sure the floor is clean and dry, with the membrane, edge insulation and floor insulation in place.
2. Plan the rail lines from the pipe layout: run them at right angles to the pipe, about every 1 to 1.2m.
3. Peel the backing and press each rail down firmly. Clip lengths together end to end for longer runs.
4. Starting at the manifold flow bar, lay each loop into the rail clips at the design centres.

06 · QUESTIONS

Asked by installers

Can I join lengths together?

Yes. The 1m lengths interlock, so you can run them end to end.

Do I need screws or staples?

No. The rail has a self-adhesive backing.
