MANIFOLDS & COMPONENTS

UFH Manifold 90° Elbow Connector Set 1"

Turn the corner between pump pack and manifold.

A 90° elbow set that mounts the pump and blending unit at right angles to the manifold, for example around a corner in a cupboard, with no extra pipework.

CODE

MHM-ELB90-1

PRODUCT

01 · IN THE BOX

What you get

- 2 x 90° elbows with swivel union nuts and flat seals

02 · YOU WILL NEED

Tools and materials

- Spanners

03 · SAFETY

Before you start

- Installation should be carried out by a competent installer, in line with the system design and BS EN 1264.
- Isolate and drain down, or isolate with the manifold ball valves, before working on a filled system.
- Hot water and pressure can cause injury. Let the system cool and release pressure before opening any joint.

04 · INSTALLATION

Fit it in 4 steps.

1. Plan the positions of the pump pack and manifold on the two walls.
2. Fit the elbows to the manifold flow and return inlets.
3. Line up the pump pack and fit the swivel nuts with their flat seals.
4. Tighten each union while supporting the pump pack.

05 · TESTING AND COMMISSIONING

Test, check, then hand over

- [x] Check both unions during the pressure test.

06 · QUESTIONS

Asked by installers

Will it fit my pump pack?

It fits our manifolds and pump or blending packs with 1" connections.

Is it a pair?

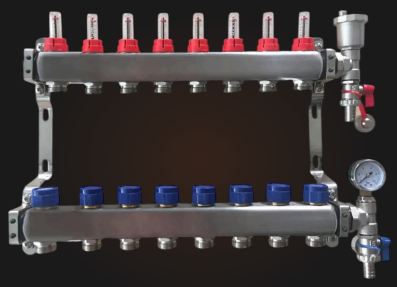

Yes. The set covers both the flow and the return.

07 · WORKS WITH

Parts that fit with it

Blending valve pump pack with Grundfos UPM3 Auto

Dualmix Stainless Steel Manifold

Auto-Balancing Stainless Steel UFH Manifold
